Knowledge

Similarity of Focus Occupation to Associated Occupation: 96

Focus Occupation: Electronics Engineers, Except Computer (17-2072)

Associated Occupation: Electrical Engineers (17-2071)

Associated Occupation's Key Knowledge Elements	Average Rating, All Occupations	Associated Occupation's Rating	Focus Occupation's Rating		Evaluation of Focus Occupation	
Engineering and Technology	5.7	22.4	20.8	0	Current knowledge level may be sufficient	
Design	5.2	21.5	20.6	0	Current knowledge level may be sufficient	
Mathematics	9.2	18.1	16.8	0	Current knowledge level may be sufficient	
Computers and Electronics	8.4	17.7	19.7	>	Current knowledge level is likely sufficient	
Physics	4.3	15.3	11.6	<<	Extensive education and/or training may be required	
Mechanical	6.8	12.9	9.9	<<	Extensive education and/or training may be required	
Telecommunications	3.9	7.2	7.2	0	Current knowledge level may be sufficient	

The maximum possible rating is 25.

Skills

Similarity of Focus Occupation to Associated Occupation: 80

Focus Occupation: Electronics Engineers, Except Computer (17-2072)

Associated Occupation: Electrical Engineers (17-2071)

Associated Occupation's Key Skills Elements	Average Rating, All Occupations	Associated Occupation's Rating	Focus Occupation's Rating		Evaluation of Focus Occupation	
Writing	9.2	13.0	12.0	0	Current skill level may be sufficient	
Complex Problem Solving	9.1	12.5	12.5	0	Current skill level may be sufficient	
Mathematics	6.2	10.4	10.1	0	Current skill level may be sufficient	
Operations Analysis	5.0	9.8	8.3	<	A higher skill level may be required	
Systems Evaluation	6.4	9.8	10.7	0	Current skill level may be sufficient	
Science	4.5	9.4	7.2	<	A higher skill level may be required	
Troubleshooting	4.5	8.8	10.0	>	Skill level is likely sufficient	
Technology Design	2.6	5.1	8.1	>>	Skill level is likely more than sufficient	

The maximum possible rating is 25.

Abilities

Similarity of Focus Occupation to Associated Occupation: 96

Focus Occupation: Electronics Engineers, Except Computer (17-2072)
Associated Occupation: Electrical Engineers (17-2071)

Associated Occupation's Key Abilities Elements	Average Rating, All Occupations	Associated Occupation's Rating	Focus Occupation's Rating	Evaluation of Focus Occupation	
Written Comprehension	11.0	14.8	14.5	0	Current ability level may be sufficient
Problem Sensitivity	11.1	14.0	13.2	0	Current ability level may be sufficient
Deductive Reasoning	10.6	13.9	12.5	<	Some improvement in abilities may be required
Written Expression	9.8	13.8	13.1	0	Current ability level may be sufficient
Inductive Reasoning	10.2	13.5	12.8	0	Current ability level may be sufficient
Information Ordering	9.9	12.3	13.3	0	Current ability level may be sufficient
Category Flexibility	9.0	11.4	11.6	0	Current ability level may be sufficient
Mathematical Reasoning	6.3	10.4	12.8	>	Current ability level is likely sufficient
Number Facility	6.3	10.1	8.7	<	Some improvement in abilities may be required

The maximum possible rating is 25.

Activities that Both Occupations Have in Common

Similarity of Focus
Occupation to Associated
Occupation: 100

Focus Occupation: Electronics Engineers, Except Computer (17-2072)
Associated Occupation: Electrical Engineers (17-2071)

Work Activities	Exclusivity of Activity
Advise clients or customers	19
Advise clients regarding engineering problems	67
Analyze engineering design problems	69
Analyze engineering test data	71
Analyze project proposal to determine feasibility, cost, or time	69
Analyze scientific research data or investigative findings	27
Analyze technical data, designs, or preliminary specifications	47
Analyze test data	64
Calculate differential equations	99
Calculate engineering specifications	64
Collect scientific or technical data	30
Communicate technical information	4
Compile numerical or statistical data	38
Compute production, construction, or installation specifications	58

Confer with research personnel Coordinate engineering project activities Coordinate manufacture of electrical or electronic equipment Create mathematical or statistical diagrams or charts Delegate authority for engineering activities Design control systems Design electro-mechanical equipment Design electronic equipment Design electronic equipment Design electronic equipment Design engineered systems Design senural equipment Design transmission equipment Design transmission equipment Design transmission equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Diraw prototypes, plans, or maps to scale Estimate ost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate engineering documents for completeness or accuracy Evaluate manufacturing or processing systems Evaluate engineering documents for completeness or accuracy Explain complex methods or techniques	50 71 95 43 73 78 82 74 75 77 99 95 85 84
Coordinate manufacture of electrical or electronic equipment Create mathematical or statistical diagrams or charts Delegate authority for engineering activities Design control systems Design electro-mechanical equipment Design electronic equipment Design electronic equipment Design engineered systems Design manufacturing processes or methods Design telecommunication equipment Design transmission equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Diraw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate materials or labor requirements Estimate materials or labor requirements Evaluate engineering data Evaluate manufacturing or processing systems Evaluate manufacturing or processing systems Evaluate monufacturing or processing systems Evaluate monufacturing or processing systems Evaluate manufacturing or processing systems Evaluate manufacturing or processing systems	95 43 73 78 82 74 75 77 99 95 85 84
Create mathematical or statistical diagrams or charts Delegate authority for engineering activities Design control systems Design electron-mechanical equipment Design electronic equipment Design electronic equipment Design manufacturing processes or methods Design telecommunication equipment Design telecommunication equipment Design transmission equipment Design transmission equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop budgets Develop programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Diraw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate materials or labor requirements Estimate materials or labor requirements Evaluate engineering data Evaluate manufacturing or processing systems	43 73 78 82 74 75 77 99 95 85 84 67
Delegate authority for engineering activities Design control systems Design electro-mechanical equipment Design electronic equipment Design engineered systems Design anufacturing processes or methods Design manufacturing processes or methods Design telecommunication equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Diraw protypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate engineering data Evaluate manufacturing or processing systems Evaluate manufacturing or processing systems Evaluate manufacturing or processing systems Examine engineering documents for completeness or accuracy Explain complex mathematical information	73 78 82 74 75 77 99 95 85 84
Design electro-mechanical equipment Design electronic equipment Design electronic equipment Design engineered systems Design manufacturing processes or methods Design transmission equipment Design transmission equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop plans for programs or projects Develop plans for programs or projects Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Diraw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate materials or labor requirements Estimate manufacturing or processing systems Evaluate manufacturing or processing systems Examine engineering documents for completeness or accuracy Explain complex mathematical information	78 82 74 75 77 99 95 85 84
Design electronic equipment Design engineered systems Design manufacturing processes or methods Design telecommunication equipment Design transmission equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate engineering data Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	82 74 75 77 99 95 85 84 67
Design electronic equipment Design engineered systems Design manufacturing processes or methods Design telecommunication equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop budgets Develop plans for programs or projects Develop plans for programs or projects Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate activities of workers or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering data Evaluate engineering data Evaluate manufacturing or processing systems Evaluate manufacturing or processing systems Evaluate engineering documents for completeness or accuracy Explain complex mathematical information	74 75 77 99 95 85 84 67
Design engineered systems Design manufacturing processes or methods Design telecommunication equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate activities of workers or staff Direct personnel in support of engineering activities Direct personnel in support of engineering activities Direct personnel in support of engineering activities Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	75 77 99 95 85 84 67
Design manufacturing processes or methods Design telecommunication equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate meded for project Evaluate engineering data Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	77 99 95 85 84 67
Design telecommunication equipment Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate activities of workers or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	99 95 85 84 67
Design transmission equipment Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	95 85 84 67
Design waste recovery methods Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	85 84 67
Determine factors affecting production processes Determine specifications Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	84 67
Determine specifications Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	67
Develop budgets Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	
Develop or maintain databases Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	ΕO
Develop plans for programs or projects Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	56
Develop policies, procedures, methods, or standards Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	30
Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	31
Develop tables depicting data Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	21
Direct and coordinate activities of workers or staff Direct and coordinate scientific research or investigative studies Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	33
Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	3
Direct personnel in support of engineering activities Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	27
Draw prototypes, plans, or maps to scale Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	74
Estimate cost for engineering projects Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	57
Estimate materials or labor requirements Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	69
Estimate time needed for project Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	61
Evaluate costs of engineering projects Evaluate engineering data Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	64
Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	70
Evaluate manufacturing or processing systems Evaluate product design Examine engineering documents for completeness or accuracy Explain complex mathematical information	60
Examine engineering documents for completeness or accuracy Explain complex mathematical information	68
Explain complex mathematical information	78
	62
Follow manufacturing methods or techniques	30
T I Ollow manaracturing methods of techniques	73
Follow safe waste disposal procedures	50
Follow statistical process control procedures	73
Improve test devices or techniques in manufacturing, industrial or engineering setting	75
Inspect facilities or equipment for regulatory compliance	51
Lead teams in engineering projects	73
Plan scientific research or investigative studies	48
Plan testing of engineering methods	72
Prepare reports	8
Prepare technical reports or related documentation	22
Provide analytical assessment of engineering data	75
Read blueprints	10
Read schematics	10
Read technical drawings	34

Resolve engineering or science problems	46
Test equipment as part of engineering projects or processes	67
Understand detailed electronic design specifications	70
Understand engineering data or reports	48
Use computer aided drafting or design software for design, drafting, modeling, or other engineering tasks	58
Use computers to enter, access or retrieve data	3
Use drafting or mechanical drawing techniques	50
Use government regulations	44
Use hazardous materials information	35
Use intuitive judgment for engineering analyses	72
Use knowledge of investigation techniques	16
Use library or online Internet research techniques	21
Use long or short term production planning techniques	74
Use mathematical or statistical methods to identify or analyze problems	30
Use pollution control techniques	62
Use project management techniques	47
Use quality assurance techniques	61
Use quantitative research methods	35
Use relational database software	26
Use research methodology procedures within manufacturing or commerce	75
Use robotics systems technology	78
Use scientific research methodology	21
Use spreadsheet software	18
Use technical information in manufacturing or industrial activities	67
Use technical regulations for engineering problems	61
Use total quality management practices	85
Use word processing or desktop publishing software	17
Work as a team member	36
Write business project or bid proposals	48
Write product performance requirements	78

Not all positions in these occupations will necessarily perform all of the listed activities. The exclusivity rating is an indication of how unique the activity is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations engage in that activity.

Tools and Technologies that Both Occupations Have in Common

Similarity of Focus
Occupation to Associated
Occupation: 76

Focus Occupation: Electronics Engineers, Except Computer (17-2072)
Associated Occupation: Electrical Engineers (17-2071)

Tools and Technologies	Exclusivity
Business function specific software	1
Computers	1
Content authoring and editing software	1
Development software	4
Electrical measuring and testing equipment	7
Electronic and communication measuring and testing instruments	14

Indicating and recording instruments	2
Industry specific software] 1
Integrated circuits	18
Light and wave generating and measuring equipment] 4
Operating environment software	12

Not all positions in these occupations will necessarily use all of the listed tools and technologies. The exclusivity rating is an indication of how unique the tool or technology is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations use that tool or technology.
